

CONTORTION

Our contortionists combine grace and flexibility as they bend and stretch into eye-popping poses that will redefine what you thought were the limits of the human body. When space allows, they can even include a spinning hula-hoop as they roll and twist between each jaw-dropping position!

For video footage, visit www.bostonicircusguild.com/contortion

Technical Requirements

Note: we highly recommend an elevated platform or stage for our contortionists.
For an additional fee we can provide 2' high platforms
